The Direct Reproduction Corporation Announces

A PERFECT SUBSTITUTE FOR GLASS

A transparent, translucent or opaque plastic sheet with a press polished or matte surface which holds its size.

Our Dyrite Clear Press Polished sheet is a perfect base for the lithographic craftsman when stripping positives or negatives for making deep etch or albumen press plates for close register work.

Our Dyrite Clear Matte One Side sheet has an ideal surface for air brush, fine line drawing, original color separations and all phases of drafting work.

Our new plastic sheet comes in a 36 x 48" size, and can be obtained in any thickness from .010" up.

Write or call for your free samples and price list.
